

STÖRI MANTEL <small>woodworking machines</small>	RESOLUTION	NO. 02/08
Subject:	Quality Policy	
Made by:	Mr. Pavel FRŇKA – Director	
Issue Date :	February 7, 2008	

Basic credo of our company is the important emphasis on traditional values, the basis of which is the following: **quality – precise processing of products – satisfaction of customers and satisfaction of employees.**

STÖRI MANTEL Company produces and supplies the technologies for processing massive wood and manufactures also special machine equipment. Our goal is to introduce our products to the market so that they mean for our final customer both economical contribution connected to increasing of work productivity and higher degree of work security with simultaneous decreasing of physical load of the operators.

We want to orientate our business activities to Central and Eastern Europe and to keep or, as the case may be, to increase current sales connections to Western Europe.

We are setting that our company continues to be mobile, flexible and promptly reacting to actual trends. We want to bring the prosperity to all participant parties with our business based on modern production technologies.

Our vision is steady development of the company, based on stable partner relationships, on detailed knowledge of needs of our customers and on our capability to support them in the sphere of consultancy, changes in management and further education in the sphere of new production technologies.

We want to achieve **the supplies** of competitive machines in top quality by constant improvement in the sphere of internal management in compliance with the requirements of the ISO 9001 standard.

Director: Mr. Pavel Frňka
